Fast ForWord Family of Products

ERAC has reached an agreement with Scientific Learning to make the Fast ForWord family of products available to ERAC members at preferred prices. ERAC member discounts will apply to purchases of two or more perpetual workstation licenses. This agreement covers each Fast ForWord product series.

Summary

The Scientific Learning family of reading intervention software products aim to strengthen brain processing and literacy skills to increase pre-K to age 14 students' reading proficiency. Fast ForWord products are suitable for elementary, middle or high school use and the license packages include the first year of Support and Virtual Academy. The Language/Literacy product series is recommended for Special Education, Aboriginal, ESL/ELL, LD and those reading 1.5 years behind in reading proficiency. The Reading Series is geared toward at-risk (.5 years to 1.5 years behind in proficiency), challenged readers or grade-level readers.

Fast ForWord Product Packaging			
Elementary Language Series	Language Basics	Middle & High School Literacy Series	Literacy
	Language Language to Reading		Literacy Advanced
Early Reading Series (Prep - R3)	Reading Prep	Intermediate Reading Series (R3-R5)	Reading 3
