## Absolute Software – ComputraceComplete, ComputracePlus and AbsoluteTrack

ERAC has a revised software agreement with Absolute Software offering ComputracePlus in addition to AbsoluteTrack and ComputraceComplete. ComputracePlus replaces the previous ComputraceComplete offer. ComputraceComplete now comes with a \$1,000 recovery guarantee.

### Summary

ComputraceComplete and ComputracePlus provide computer theft recovery and secure asset tracking for desktops and laptops, while AbsoluteTrack provides secure asset tracking only. Information Technology personnel may centrally manage their entire computer population, including remote and mobile assets, with detailed reports for every internet connected computer.

### Timelines

**June 11, 2007 – June 30, 2009**

### Pricing

The following table outlines the cost per product for a 1 to 4 year term:

ComputraceComplete	AbsoluteTrack	ComputracePlus
One-year subscription = \$32.16 per unit	One-year subscription = \$11.85 per unit	One-year subscription = \$24.45 per unit
Two-year subscription = \$58.06 per unit	Two-year subscription = \$22.35 per unit	Two-year subscription = \$41.95 per unit
Three-year subscription = \$77.66 per unit	Three-year subscription = \$30.75 per unit	Three-year subscription = \$58.00 per unit
Four-year subscription = \$95.86 per unit	Four-year subscription = \$37.75 per unit	Four-year subscription = \$69.95 per unit

### Details

**Computrace® Complete** provides Computer Theft Recovery as well as Data Protection and Secure Asset Tracking™. This product is centrally managed by IT, and meant for customers with large populations of remote and mobile users. In the area of computer theft, the product deters theft, minimizes computer drift, and recovers stolen computers. For IT asset management, ComputraceComplete gives IT staff visibility on up to 100 percent of their connected computer assets, including the 40 percent that Gartner Group (<http://www.gartner.com>) says are unaccounted for at any given time. ComputraceComplete offers up to a \$1000 Recovery Guarantee if a stolen computer cannot be located within 30-60 days.

**Computrace® Plus** provides Computer Theft Recovery, Data Protection and basic Secure Asset Tracking™ reports. ComputracePlus allows IT professionals to track their organization's computer assets, recover lost or stolen machines and remotely delete sensitive data if a computer is lost, stolen or nearing the end of its lifecycle.

**AbsoluteTrack** easily and accurately tracks district and school computer systems regardless of where the computer is located (on or off-site) all from a single point of control. Absolute's products put computer tracking, loss control, secure asset tracking and inventory management at users' fingertips. Districts or

schools may centrally manage their entire computer population, including remote and mobile assets. Computrace, the technology driving AbsoluteTrack, generates detailed reports for every computer with an Internet connection. Computrace products enable you to:

- Track machines as they change hands or move around within the district or school
- Know where leased computers are located and when they are due back
- Track hardware and software inventory and ensure license compliance
- Create predefined alerts to manage users who are operating outside corporate policies
- Automatically detect unauthorized software use or missing hardware
- Proactively diagnose problems remotely to identify preventative maintenance tasks and reduce help desk costs
- Monitor asset data changes by machine
- Use reports to plan and budget for individual, school or district-wide upgrades, migrations and machine retirement

Reference the AbsoluteTrack case study for Surrey School District posted on the ERAC website with this notice or at: [http://www.absolute.com/PDF/CaseStudies/CaseStudy\\_SurreySchools\\_Nov21\\_06.pdf](http://www.absolute.com/PDF/CaseStudies/CaseStudy_SurreySchools_Nov21_06.pdf)  
This offer does not include the asset recovery guarantee specified (detailed?) on the Absolute website.
