Book King

ERAC has renewed its agreement with Book King, enabling school districts and independent schools to obtain discounts on the purchase price for the company's scheduling, registration and public access modules.

Summary

Book King's Event and Facility Management solution includes: Facility and Resource Scheduling, Event and Program Registration, Event Ticketing, Membership Management and Public Access with E-Commerce Modules.

The ERAC agreement focuses on three main modules;

- The **Scheduling Module**
- The **Registration Module**
- The **Public Access Module**

The **E- Commerce Module** is also available at no initial charge but it is subject to credit card monthly fees as well as transaction fees.

Timelines

January 1, 2009 – July 31, 2011

Pricing

Pricing for the modules is shown on the attached price sheets. The price varies depending on the number of courses / events used and whether or not the client wants to use the ASP model (modules are hosted and maintained by the supplier) or purchase in the traditional manner (hosted and maintained by the client).

ERAC District Contacts and District Purchasing Managers [please login](#) for further details.

Details

The agreement covers three of the modules that are potentially of interest to school districts and schools.

Scheduling Module

Book King's Scheduling Module is designed to optimize a school district's or a school's use of its facilities and resources through an intuitive interface. The Scheduling Module dynamically manages facilities and resources, searches for facility availability, sets facility approval and conflict rules, assigns services and resources, runs reports, prevents redundant data input, and manages client information. This module is available as an SaaS (online) or Traditional model.

For more information on Book King's Scheduling Module please visit:

http://www.bookking.ca/bookking/downloads/Book_King_Scheduling_Datasheet.pdf

Registration Module

Book King's Registration Module allows school districts to manage enrollments in staff development sessions, community education programs or other district or school organized events. It incorporates invoicing and reporting of all of the organization's courses, events and activities. The Registration Module manages courses, locations, client information, enrollment, waitlists, teams, instructors, instructor payment, groups, and business information. This module is available as an SaaS (online) or Traditional model.

For more information on Book King's Registration Module please visit:

http://www.booking.ca/booking/downloads/Book_King_Registration_Datasheet.pdf

Public Access Module

Book King's Public Access Website provides a school district or school with a community accessible website that enables easy access to information on your activities, facilities and services. This module is available as an SaaS (online) or Traditional model.

For more information on Book King's Public Access Module please visit:
