Lambda Solutions Inc.

Online Orientation and Safety Course for BC School Districts

ERAC has finalized an agreement with Lambda Solutions Inc which will provide members with preferred pricing for their Online Orientation and Safety Course for BC School Districts.

Summary

As per WorkSafeBC requirements, every new employee of a BC school district must complete a course of this nature prior to commencing their employment. Lambda Solutions Inc. has created an effective and concise method of delivering this course to employees. The web-hosted online course is divided into a number of modules which employees can complete at their own pace. Their progress is recorded and submitted to the employer when the employee has completed the course. Districts and schools are encouraged to consider this solution for all of their current and new staff members.

Timelines

June 1, 2009 – June 30, 2010

Pricing

ERAC District Contacts and District Purchasing Managers [please login](#) for further details.

ERAC members will order directly from Lambda Solutions Inc., which will invoice ERAC members directly.

Details

This course has been created in partnership with the Vancouver and Surrey School Boards. Lambda Solutions Inc. has the right to market this course to other school districts in the province of BC and many districts have indicated their keen interest in the product.

ERAC members are to submit their orders directly to Lambda Solutions Inc. Lambda Solutions Inc. will invoice the ERAC members directly. Any issues that have to do with support, invoicing or payment are to be directed to Lambda Solutions Inc.

Contact

ERAC members who have questions about the product, ordering, support or invoicing should contact Lambda Solutions Inc.'s Jonathan Rand at jonathan.rand@lambdasolutions.net or by telephone at 1.877.700.1118 ext. 204

ERAC members who have questions about details of the agreement may contact ERAC at info@bcerac.ca or 604-713-5920.
